

#1301 – 1315 Fizzy Bath Salts

Available in 200 g jar, 400 g jar and bulk sizes

Our Fizzy Bath Salts were originally created as a bath bomb formula during a craze that hit the markets from 1994 – 2000. We made thousands bath bombs and we broke hundreds during the manufacturing, and had to replace hundreds due to breakage through shipping. So we got smart – now our broken bath bomb formula is simply packaged in jars.
