

#1217 Rose Crystal Face Polish

Heavenly scented with beneficial essential oils of Rose Otto and Ylang Ylang combined with French pink clay, silk powder and fine sugar crystals.

Use once a week as a gentle exfoliating facial treatment. Apply to pre-moistened skin. In the palm of your hand, mix 1 – 2 teaspoons of powder with 1 teaspoon of any wet medium such as a facial cleanser. Apply immediately using gentle massage strokes.

Crystals dissolve very quickly – and so adding a little more crystals as you go will create more texture. Allow mixture to set for 5 minutes then rinse with tepid water and gently pat dry.

Be creative – try mixing powder with other wet mediums to create other nourishing treatments.

Finish treatment with a spray of Rose Hydrosol allow to dry. Then complete with our unscented Rejuvenating Face Serum. For suggestions on additives to our Face Serum see product profile for that product.

When applying – avoid delicate eye area.

Ingredients: Sugar, Montmorillonite clay (French Pink Clay), silk powder, essential oils of Rose Otto, Ylang Ylang and maltodextrin.
